Experience

Laravel Developer | GMG Software Solutions | Hyderabad, Pakistan | July 2024 – September 2025

- Specialized in backend development using Laravel, ensuring clean, scalable code to optimize performance.
- Collaborated closely with cross-functional teams, integrating RESTful APIs, payment gateways, and third-party services to enhance functionality and provide smooth user experiences.
- Led server deployment, pull requests, code reviews, and unit testing to ensure high-quality deliverables.

PHP Developer Intern | MIT Software Solutions | Hyderabad, Pakistan | August 2023 – October 2023

- Developed and implemented mini-projects to enhance coding skills and understand project lifecycle.
- Collaborated with team members to design and develop web applications.
- Participated in debugging sessions and code reviews to enhance functionality and performance.

PHP Developer Intern | Hidaya (HIST) | Hyderabad, Pakistan | February 2023 – May 2023

- Engaged in hands-on learning of Laravel framework, resolving real-world problems, and applying knowledge in practical scenarios.
- Contributed to documentation of project requirements, specifications, and progress under the guidance of mentors.

Projects

Township Web Portal | Tech Stack: Laravel , MySQL , AJAX ,JavaScript ,Jquery & JSON
